Research Study
Investigational Treatment for Hoarding

The UCSD Obsessive-Compulsive Disorders (OCD) Program is looking for people who have problems with hoarding, saving, or clutter to take part in a study that is providing:

***Diagnostic Evaluations**
***Brain Imaging Scans**
***12 weeks medication treatment**
***Neuropsychological Evaluation**

You may be eligible if you:
***have no history of psychiatric disorder**
***are in good physical health**
***are not taking any medications that affect the brain**
