Research study

Investigational treatment

for Obsessive-Compulsive Disorder (OCD)

Do you:

- **Feel compelled to check or repeat things over and over again?**
- **Feel compelled to wash excessively or avoid touching things for fear of contamination?**
- **Have excessive concerns about symmetry or order?**

The UCSD Obsessive-Compulsive Disorders (OCD) Research Program is looking for people with OCD to take part in a research study that is providing:

* Free Diagnostic Evaluation
* Free Psychological Assessment
* 11 weeks of Free Behavioral Treatment for OCD

You may be eligible if you:

*are age 18-65 and have OCD *are fluent in English language *are NOT actively psychotic, severely depressed, or suicidal *do NOT have active substance abuse/dependence, mental retardation, or dementia.
