Parking Recommendations

Refer to attached map

- The “**Best Area To Park**” as shown on the map is closest to the Life Development Building (Room 209) where the conference takes place. It is often less congested than other lots on Saturdays when the Farmer’s Market is taking place. The map also includes an arrow showing the best location for walking to the building.
- The “**2nd Best Area to Park**” is also shown on the map if the primary lots are full. There is a parking structure if needed, but often gets crowded.
- It is best to enter the complex from Bonita Canyon Drive or Newport Coast Drive (see map). If you enter from Turtle Ridge Drive you will likely encounter significant congestion, and find it difficult to find parking due to the Farmer’s Market activities.
- Volunteers in green OCD T-shirts will be in the general area to assist attendees with finding their way to the event.

VENDORS – See map for recommended “**Vendor Unload Area**” which is very close to the event building. Volunteers in green OCD T-Shirts will be there to assist with off-loading your vehicle. After dropping off supplies, please proceed to find parking in the recommended areas.
